

Project Management Professional PMP® Overview

An essential course for anyone with the responsibility of delivering projects on time and on budget

IMG—1193 Project Management Professional

PMP® Qualification

In this dynamic, practical and case study driven course, delegates will receive exposure to the very latest modern project management tools and techniques that aim to add significant value to individuals who may be involved at various levels in Project Management.

Project Management is one of the fastest growing professions worldwide. Taking the Project Management Professional (PMP®) certification, will add significant value to both your career prospects and the projects you may be assigned to manage.

The Project Management Professional (PMP®) certification is administered by the Project Management Institute (PMI®), who are the de facto organisation, responsible for the certification of Project Managers on a worldwide basis.

The PMP® qualification is divided into three logical course groupings.
